

Diagram illustrating the cross-section of a curb and gutter for a 15' radius driveway. The diagram shows a 30' wide driveway with a 15' radius curb. A 4" rise slope varies across the 30' width. A 10' wide non-walking area is shown with a 1" rise in 4.0 feet. A 2" rise from the gutter is indicated. The back of the curb is shown with a 5" ramp in 5'.

Walking area at back of curb ramps down 5".
Gutter is shaped with 2" rise to back of curb.
15' Radius plus 5' ramp mimics 20' radius.

*(if property line is less than 10' from back of curb concrete required only to property line)

$$1'' = 10'$$
